Dear Senator McCain,

I urge you to tell the Federal Communications Commission (FCC) not to weaken the rules that help preserve competition and diversity among the owners of America's newspapers and radio and TV stations

As you know, the FCC is reviewing rules currently for media ownership and is likely to allow big corporations to dominate ownership of media in a particular city or town. If that happens, one company may be allowed to own the local newspaper, several TV and radio stations and the cable TV system in the same community. There would be fewer owners of networks, stations and newspapers nationwide.

Media ownership would be concentrated among fewer companies and the public's ability to have open, informed discussion with a wide variety of viewpoints would be compromised. Plus, it likely would result in higher costs for businesses that advertise in local media, and those costs likely would be passed onto consumers.

The FCC is expected to vote on whether to change the rules on June 2. The public comments submitted to the FCC by individuals have been opposed to media consolidation overwhelmingly. Americans understand that the public interest is not being served by deregulation that reduces competition.

Please tell the FCC to reinstate its traditional media ownership rules for the sake of competition and democracy.

Thank you.

Sincerely,

Ruth Picon

Dear Senator McCain,

I am aware of the FCC's ill-advised decision to continue the unfortunate trend of de-regulation that has caused so much damage already to our national industries. But it is not too late to repeal the decision, or at least, to lead and lend support to the charge to appeal to the Supreme Court. Democracy itself is the real loser if we as citizens can't trust the media to stand up to corporate America because they ARE corporate America. It's true to a large extent, already, but enough is enough. STOP THE EROSION OF OUR FREE PRESS.

If this decision is allowed to stand, one company may be allowed to own the local newspaper, several TV and radio stations and the cable TV system in the same community. There would be fewer owners of networks, stations and newspapers nationwide.

Media ownership would be concentrated among fewer companies and the public's ability to have open, informed discussion with a wide variety of viewpoints would be compromised. Plus, it likely would result in higher costs for businesses that advertise in local media, and those costs likely would be passed onto consumers.

Americans understand that the public interest is not being served by deregulation that reduces competition.

Please appeal this disastrous decision.

Thank you
